The Essence of Eternal Elegance

Seducing All the Senses.

Just like when you wear a kimono,
you naturally move around more gracefully and become a more elegant person.

A graceful and clean, pure appeal, filled with elegance.

Bring the emotional beauty unique to Japan to your everyday life, just by wearing a fragrance.

All scents are infused with natural sublime rose essence (has received the For Life Certification*)
which creates an elegant depth.

Four kinds of fragrance, focusing on the harmony of flowers and fruits,
selected by four perfumers who perceived a Japanese-like spirit in them.

A ribbon, in a color taken after the name it bears,
was tied around an elegant-shaped bottle like a belt.

This is a modern and timeless fragrance series
that color even your awareness and mood, each time you put it on.

KIMONO KIHIN

Grace with empowered radiance

Brilliant and noble floral chypre
with notes of the elegant iris.

Bring out the strength and beauty within.

The elegance of the Japanese iris (Ayame) is expressed with
powdery floral notes that begin with the soothing scent of
bergamot.

Layered on to this are radiant jasmine
accents for an unprecedentedly
sophisticated impression. The finish is sweet
and noble, with patchouli and sandalwood,
leaving an unforgettable aftertaste.

Gentle happiness tied to sweet purity

A clear and lush floral note of the fresh, succulent sudachi.

Refreshing and bittersweet citrus and light pink pepper create a bursting top note. The bouquet-like middle note centering on orange flower scents hints of clear early summer sunshine. Lastly, a seductive woody note with a soft vanilla finish envelops you in gentle happiness.

the magnificent water lily and fresh apple.

The overflowing vitality of beautiful flowers and fruits.
A top note begins with the fresh scent of apple and melon.
Then, the pure water lilies*, which are even
clothed in holiness, are scented, giving a
